A LIVE-WIRE NEWSPAPER --- WITHOUT DOUBT THE BRIGHTEST AND BEST APPEARING COUNTRY WEEKLY PUBLISHED IN THE DOMINION OF CANADA

DOM. HOUSE PROROGUED BY GOV. GEN.

Ottawa, June 4.—(Can. Press.)—With traditional pomp, His Excellency the Duke of Devonshire, Governor-General, prorogued Parliament this afternoon. The occasion was more than the usual closing of the parliamentary session. It was a valediction to His Excellency, a farewell message to the members of parliament who he addressed for the last time, before he left the office of prime minister.

To this His Excellency made reference in the speech from the throne following the customary counting of measures adopted during the session. This was the last occasion he said, "at which I have the privilege of addressing you as my term of office will have expired before you meet again."

"My dear friends," he added, "that I shall always retain a very real affection for Canada and its people and I shall watch your progress with the greatest interest. I hope also that of that an ever-increasing measure of happiness and prosperity will the lot of the Dominion."

Calgary Speeder Who Killed Woman Gets 2 Years in Jail

CALGARY, June 8.—Stanley Nistic, a transient shoe merchant, was sentenced to two years less one day in Lethbridge jail, Tuesday, on the charge of manslaughter as result of a collision with a woman who was struck with his car last August. This is Nistic's second trial. He was accused of having last fall and the several counts ordered a new trial on the hearing of an appeal made by the crown prosecutor on the basis of the charge to be manslaughter. The trial was adjourned by Judge Walsh. Nistic conducted his own defense and was represented by the court-appointed lawyer. The jury returned a verdict of guilty. The judge summed up on the case and said he hoped prosecution of this case would have salutary effect in checking speed mania of auto owners in the city.

TELEGRAPHIC BRIEFS

LONDON.—The appointment of Lord Byng of Vimy as governor-general of Canada in succession to the Duke of Devonshire has been officially announced.

CONSTANTINOPLE, June 8.—Turkish National armies are now operating on frontiers to the west, bodies of Moslem Bolshevik troops which have been concentrated during the past month on the Armenian border.

The Angora government has also made an offer to the Wrangels, former head of the Anti-Bolshevik movement of Southern Russia, to transplant his army in Thrace, and there form a Turkish-Russian republic. Gen. Wrangel accepted the offer.

The Greek fleet appears to have been given liberty of action by the Allies. The Greek admiral Kalliatis has proceeded into the Black Sea with a Greek destroyer and is sinking a number of small vessels used by the Turks.

Mustapha Gets Reinforcements

LONDON, June 8.—Large military reinforcements have been received by Mustapha Kemal Pasha, head of the Turkish National Government at Angora, and he is threatening to advance upon the Black Sea and the Sea of Marmara. The Angora admiral is said to have taken an arrogant attitude toward the allies. Dispatches regarding these statements were transmitted to the British War Office this morning, and the situation in Asia Minor was declared to hold alarming possibilities.

Information received would appear to imply the inability of the Greeks armada operating at present before the British to withstand the attack of the Angora, and he is threatening to advance upon the Black Sea and the Sea of Marmara. The Angora admiral is said to have taken an arrogant attitude toward the allies. Dispatches regarding these statements were transmitted to the British War Office this morning, and the situation in Asia Minor was declared to hold alarming possibilities.

A Constantinople dispatch says that the British had sent a large battle ship Iron Duke and King George have been ordered to the Dardanelles; it being intended that they will join in operations against the Angora by blocking Black Sea ports and covering the landing of Greek reinforcements.

The English admiral, Sir Edward British warships Bellerophon and Centaur which recently have been engaged in target practice on the sea of Marmara, will be sent to the Black Sea. The prediction is that British destroyers will soon arrive in the straits.

Corroboration of these reports is lacking in official quarters where it is stated the British government has not reached any decision regarding the difficulties encountered in Asia Minor.

THE TROUT SEASON IS EARLIER NOW

According to the new announcements regarding sport fishing, the time for opening the season for lake trout or grayling which has been from October 15th in each year until November 1st for the last days inclusive, has been altered so as to allow fishing to begin on May 1st and end on September 30th. The cut-throat trout spawn in the spring and the early part of the fall and investigations have proven that trout spawning season is practically over after the first of October.

The cut-throat trout, under the special fisheries regulations has been among the most popular game fish in the portion of Alberta northward from the international boundary, which includes the Bow River and its tributaries, no small fish or catch or commercial value can be taken except lake trout or Rocky Mountain Whitefish.

Whitefish, however, are taken in the month of April and May, when he addressed for the last time, when he addressed for the last time, when he left the office of prime minister.

To this His Excellency made reference in the speech from the throne following the customary counting of measures adopted during the session.

This was the last occasion he said, "at which I have the privilege of addressing you as my term of office will have expired before you meet again."

"My dear friends," he added, "that I shall always retain a very real affection for Canada and its people and I shall watch your progress with the greatest interest. I hope also that of that an ever-increasing measure of happiness and prosperity will the lot of the Dominion."

Wild Gold Rush Into Peace River

EDMONTON, June 7.—Peace River is wildly excited over a wild and weird gold rush which has sprung up after a trip to the new find, the exact location of which is not known.

The cause of the tension was the arrival of a few weeks ago to investigate a claim made by an old Indian who had a number of small nuggets.

As near as we learned Dr. G. G. Gandy, a partner in a creek at the eastern end of the river, who is reported flowing into the Cadotte River and panned out beyond his expectations. He hurried to Peace River with his filing claims, and the rush was on.

Slow Progress in Big Flying Boats

LONDON, England.—The development of the big flying boat is proceeding satisfactorily, but the rate of progress in the design of these big aircraft is not as rapid as that of airships. A certain amount of cynicism exists, in America, as regards the flying boats, and others believe that leading aeronautical engineers, and naval engineers also, in America, Great Britain, Italy and France, are not making much progress. At the moment Great Britain appears to have been most successful with this type.

Undoubtedly Great Britain leads in the matter of hull construction for big flying boats, to which problem British engineers have given much attention, and the Americans have given up much more serious, and will for some time to come prove a limiting factor.

The "ambush"—nevertheless, the feature of the hull which is most important—is still not solved.

Robert S. East, chairman of the flying boat committee, gave the following summary of the present conditions in "Pueblo."

The flying plant is out of commission.

HOME, HEALTH and BEAUTY

SECRET OF BEAUTY

Beauty? That has been the ambition of woman from time immemorial, and she has not even tried to conceal it from herself or the world. But the taste for beauty is not the same in the male sex has been even more inordinate than that of the female as we find the desire expressed in the flocks of the court birds and the palaces of other animals, and not by any means obscure is the male human being.

The secret of beauty is to be found in the mind. Every human face and figure is a picture of the condition of the mind which directs it, and the same is true of lower animals. It always has been my belief that if a person could be fatigued out of contact with the masses, and their environment, he would be perfectly contented; bound to him that no disturbance or lack of harmony should interfere with his thoughts to the minds of these children, that their health should remain good, and that they should receive the utmost refinement should influence their lives, then such children should be perfect. As much as they would in modern culture. In one or two or ten generations the end would not be accomplished, nevertheless, but that would be indicated.

—Richard L. Garner.

Your Precious Eyes

(By Gina Cavalleri, The Most Famous Living Beauty.)

The good housewife knows that nothing is so necessary for ventilation as having the windows open and working air, so that the air is clean and readily admitted or expelled. So she is careful to keep the pulleys in good running order, and if a frame becomes

worn from moisture she at once has this defect remedied.

If we were as careful to keep our eyes motors in good working condition they would be fatigued, call the eyes to rest, with less expense and trouble of beauty than we use.

The pupil of the eye, which dilates to admit light and contracts when light is the original soul window. It is merely a hole which becomes smaller or larger as the pupils of the iris contract.

Turn you that all muscles feel better when they are even, exercised, and the eyes are in better condition. Turn the darkness is after spending much time in a bright light.

One of the most ways of keeping your eyes in health is therefore to close the eyes from time to time and enable the muscles which have been held in tension to relax. This is a simple exercise. Bring to boiling point, stirring constantly, 1 cup cornstarch and 1 cup sugar. Add 4 teaspoons salt and 1 cup strained strawberry jam. Pour over 2 cups flour and pour slowly over 2 cups stiffly beaten egg whites. Beat until smooth and pour into a well greased pan with a wide bottom. Unmold and garnish with cherries. Serve with or without cream.

STRAWBERRY CORNSTARCH PUDDING

Blend ½ cup cornstarch with ¼ cup sugar, 4 teaspoons salt and 1 cup strained strawberry jam. Pour over 2 cups flour and bring to boiling point, stirring constantly until the egg whites are well beaten. Add ½ teaspoon vanilla, 1 cup powdered sugar and beat until stiff. Add a few drops of vanilla. When mixture is beaten set aside to cool, and then place in an oven to cook.

CHOCOLATE BREAD PUDDING

Add 1 cup stale bread crumbs, 1½ cups chocolate and 1 cup sugar. Mix 1 cup milk and 1 cup water until a smooth paste is made. Beat 2 eggs, add ½ cup sugar and beat constantly until the egg whites are well beaten. Add ½ teaspoon vanilla, 1 cup powdered sugar and beat until stiff. Add a few drops of vanilla. When mixture is beaten set aside to cool, and then place in an oven to cook.

LEMON SAUCE

Mix 3½ tablespoons cornstarch with 1 cup sugar. Stir slowly into 2 cups boiling water. Cook 10 minutes, stirring constantly. Add the grated rind and juice of 1 lemon and 2 tablespoons of butter.

TAPIoca DELIGHT

Boil ¾ cup sugar and ½ teaspoon salt in 4 cups hot coffee which has been strained. Add 1 cup marmalade. Cool and heat water until the marmalade is perfectly transparent. Add ½ cup vanilla. Chill and serve with cream.

LEMON RICE PUDDING

Pick over and wash rice and cook until tender. Mix 1½ cups rice with 1 egg, ½ cup sugar and 3 cups milk. Add the juice and grated rind of ½ lemon. Put into a buttered baking dish, set in pan of hot water and bake slowly until firm in centre. Serve hot or cold.

SPICED PUDDING

Soak 1 cup browned bread crusts in 2 cups scalded milk until soft. Then press through coarse sieve or potato ricer. Add ½ cup cane molasses, ½ teaspoon salt, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins and ½ cup raisins. Bake in a moderate oven, stirring occasionally at first. Serve with thin cream.

DUTCH APPLE CAKE

Mix and sift 2 cups flour, to teaspoon salt, and 3 teaspoons baking powder. Work in 4 tablespoons butter and add 1 egg beaten and dissolved in 1 cup milk. Add 1 cup sugar and 1 cup raisins. Bake in a moderate oven, stirring occasionally at first. Serve with thin cream.

APRICOT TAPIOCA

Soak 6 or 8 dried apricots in cold water overnight. Then cook them until tender. Cover 1 cup apricot pulp with 1 cup water and boil until the pulp is tender. Add 1 cup sugar, 1½ cups boiling water and ½ teaspoon salt. Cook over hot water until the pulp is tender. Add 1 cup tapioca and 1 cup sugar. Place the apricot in a buttered baking dish, pour the tapioca over them, add apricot juice and bake in a moderate oven about ½ hour. Chill and serve with custard or cream.

INDIAN PUDDING

After a large dish is filled with alternate layers of browned bread crumbs and hot sweetened fruit with the juice. Let stand several hours to chill. Unmold and serve with cream and sugar.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

EGGLESS STEAMED PUDDING

Mix and sift 1 and 2½ cups flour, ½ teaspoon soda, ½ teaspoon salt, ½ teaspoon cloves, ½ teaspoon nutmeg, ½ teaspoon cinnamon, 1 cup raisins, 1 cup chopped raisins. Mix ½ cup cane molasses, ½ cup milk and 2½ cups melted butter. Add to flour.

THE PROGRESS OF EGYPT

In spite of all that Zedoul Pharaon and his followers are able to do in Egypt, in the way of stirring up an outcry against British rule, it is necessary to realize that even such tactics are only serving to convince the more sober elements in the country that the time has come when control, at least in so far as the military and political aspects are concerned, at the present time, would be little short of a disaster. Those who have made any study of Egyptian history will realize that the same forces which brought about the fall of the Empire of Akhenaten, the civilization having been largely a veneer where the Egyptian was concerned. Today, the schools are closed, the children are scattered, the cities seem to be grasping something of its true significance, and the people are left with a foundation of honest and sound upon which alone a true democracy can be built. As a writer in this paper recently pointed out, the matter is not one of the boy scouts, the Boy Scouts, and learning the scout code of honor; nor is it to game, with their leaders, the boys of the world. It is to learn that the community should regard it as a civic obligation to war upon this pest.

Science has long since demonstrated the fly's responsibility for disease, and the disease germs. Everyone knows how unsanitary it is to have the fly about. Yet there is the constant danger that the community will not awaken to the real danger until the number has multiplied to such an extent that it cannot be avoided. If the fly has already done so this is the time to get the swatter into action. The winter is over, and the time for action is now.

To the degree that it can be killed before its eggs have been deposited the work of limitation will be much easier and faster.

Health departments are consistently doing all in their power to make life of this pest more difficult. Serf First, that of education, acquiring the knowledge and best within his power.

Second, that of achievement, achieving for himself and his family, during the first few years of his incapacity those who are closest to him are provided for. And to the breeding places he leaves behind him an embarrassment rather than a problem.

The third service for others. That is the act of self-sacrifice, and this is done by him when he has enough, and is willing, not only to let well enough alone, but to go further, and help another, or other fellow, to recognize, in a practical way, that we are our brother's keeper; that a brotherhood of man should be maintained, and not in an organization or an after-dinner speech.

Third, service for others. That is the act of going on pursuing the same old game; accumulating more money, grasping for more power, more influence, more knowledge, overtake them, and a sad incapacity is the result, or they drop out, the moment they leave behind them an early grave by another name. They cannot seem to get the truth into their heads, that as they have been helped by others, so should they help others.

No man has a right to leave the world as he found it, and add something to it; either he must make his people better or happier, or he must make the face of the world more beautiful, or fail to look at. And the one really means the other. Edward Bok.

When Great Britain first began to exercise control over Egypt, after the Arabi rebellion of 1882, she found the country bankrupt, not only financially but morally. Few governments have been so successful as the Egyptian Government of forty years ago. The redemption of the country was a difficult and slow task, but gradually, through the ministrations of a succession of great personages, supported by a strongly devoted civil service, the country was brought out of chaos; the grinding poverty which had characterized the lot of the fellahs was gone, and Egypt was "done away with" the way to prosperity.

Economically and socially, Egypt has made great progress, but the political position is review, the result, it must be confessed, is dismally fundamental. The Egyptian now has no say in his own affairs, and is controlled by a strongly devoted civil service, which has been instrumental in bringing about the Egyptian Government of forty years ago. The redemption of the country was a difficult and slow task, but gradually, through the ministrations of a succession of great personages, supported by a strongly devoted civil service, the country was brought out of chaos; the grinding poverty which had characterized the lot of the fellahs was gone, and Egypt was "done away with" the way to prosperity.

Nowhere else in the world is there

such a narrow limit to which his activities are circumscribed.

His successor, General Byng, is also on terms of complete friendship with the members of Canadian corps, who, as wearers of khaki, served under him in the campaign of 1917 and learned to respect him as a man of ability. The approval of our ex-soldier citizens is an excellent recommendation of Lord Byng.

The majority of farmers do not know the cause of hail, and see the damage it causes as a matter of mere locality. When he visits the district, they see the effect but take no interest in the cause. The cause is not known, and it is not a secret, but a known fact, and it is one thing which has always absolutely baffled the efforts of science to find out, and its only protection is insurance.

Hail is frozen moisture and is caused by the droplets of moisture falling from clouds, and when they are carried upward on an ascending current of air into a stratum of cold air. There the droplets freeze, and when frozen in the cloud is frozen—the hail stones descend again receives another moisture, and when it falls again it refreezes and again descends. This process continues until it becomes too heavy, and the current is unable to support it, when it falls to earth. The stones are usually responsible as to the severity of the storm and to where the damage occurs. No one can tell the cause of hail. The cause eliminates this theory.

Upon the amount of rainfall during the early season months, the amount of hail may be expected to have. Years of over-average rainfall, and the reverse, are years of under-average years. There has never been a year of over-average rainfall, but the hail damage has been very great.

The rainfall during the past four years has been under-average, and it is the longest period of dry weather in the history of the province. All signs point to heavy precipitation during the growing season.

Everyone, whether it be in home, office, factory or shop, designates himself as a father of one, making him a good and kind father to his wife, and to his children, and to his breeding place, the late summer months are to him a greater joy than they have been in the past.

Hail is more prevalent in years when the precipitation is heavy during the growing season. This is natural reasoning as it requires moisture to form hail, and the lack of moisture during the growing season was greatest in 1916, when companies throughout the American Continent paid out an amount of insurance greater than four million dollars over and above their net premiums.

Many farmers do not suffer from hail damage, believe their land is immune to hail. This is an erroneous belief as the location of the land has nothing to do with the damage, and the heavens in connection with hail. This is proven every year in some parts of the province. People living in one place are not necessarily subject to the same conditions of a very local nature—this is only natural. Last year there were extremely bad hail storms in districts never previously visited by hail—in the Carbon district, the Wainwright district, and many others where there was a heavy hail damage for the first time.

Come and hear the saxophone with Smith's Orchestra, G. W. V. A. Hall, Tuesday, June 14th.

Many communities have already organized campaigns against the disease germs. Everyone should be organized in organized every community, every family and every individual should regard it as a civic obligation to war upon this pest.

Science has long since demonstrated the fly's responsibility for disease, and the disease germs. Everyone knows how unsanitary it is to have the fly about. Yet there is the constant danger that the community will not awaken to the real danger until the number has multiplied to such an extent that it cannot be avoided.

If the fly has already done so this is the time to get the swatter into action. The winter is over, and the time for action is now.

To the degree that it can be killed before its eggs have been deposited the work of limitation will be much easier and faster.

Health departments are consistently doing all in their power to make life of this pest more difficult. Serf

First, that of education, acquiring the knowledge and best within his power.

Second, that of achievement, achieving for himself and his family,

during the first few years of his incapacity those who are closest to him are provided for. And to the breeding places he leaves behind him an embarrassment rather than a problem.

The third service for others. That is the act of self-sacrifice, and this is done by him when he has enough, and is willing, not only to let well enough alone, but to go further, and help another, or other fellow, to recognize, in a practical way, that we are our brother's keeper; that a brotherhood of man should be maintained, and not in an organization or an after-dinner speech.

Third, service for others. That is the act of going on pursuing the same old game; accumulating more money, grasping for more power, more influence, more knowledge,

overtake them, and a sad incapacity is the result, or they drop out,

the moment they leave behind them an early grave by another name.

They cannot seem to get the truth into their heads, that as they have been helped by others, so should they help others.

No man has a right to leave the world as he found it, and add something to it; either he must make his people better or happier, or he must make the face of the world more beautiful, or fail to look at. And the one really means the other. Edward Bok.

MAN'S THREE PERIODS

As I see it, a man should divide his life into three periods:

First, that of education, acquiring the knowledge and best within his power.

Second, that of achievement, achieving for himself and his family,

during the first few years of his incapacity those who are closest to him are provided for. And to the breeding places he leaves behind him an embarrassment rather than a problem.

The third service for others. That is the act of self-sacrifice, and this is done by him when he has enough, and is willing, not only to let well enough alone, but to go further, and help another, or other fellow, to recognize, in a practical way, that we are our brother's keeper; that a brotherhood of man should be maintained, and not in an organization or an after-dinner speech.

Third, service for others. That is the act of going on pursuing the same old game; accumulating more money, grasping for more power, more influence, more knowledge,

overtake them, and a sad incapacity is the result, or they drop out,

the moment they leave behind them an early grave by another name.

They cannot seem to get the truth into their heads, that as they have been helped by others, so should they help others.

No man has a right to leave the world as he found it, and add something to it; either he must make his people better or happier, or he must make the face of the world more beautiful, or fail to look at. And the one really means the other. Edward Bok.

WORK

If we could get absolutely rid of

that work is a hardship and affliction, the world would make a great step forward in happiness and satisfaction.

There is no use in

claiming that it is not at all under the spell of such a delusion, for absolute emancipation from it has hardly been achieved by any human being.

More work is a part of our nature, and another we are born to hate to work, to cheat, to destroy, the dream of escaping from it, and to think of joy as a product of play, is the result, or they drop out,

the moment they leave behind them an early grave by another name.

They cannot seem to get the truth into their heads, that as they have been helped by others, so should they help others.

No man has a right to leave the world as he found it, and add something to it; either he must make his people better or happier, or he must make the face of the world more beautiful, or fail to look at. And the one really means the other. Edward Bok.

OUR GOVERNOR-GENERAL

The present Governor-General, the Duke of Devonshire, who is to take his leave of Canada within the next three weeks will merit the commendation of official and otherwise, of which he is worthy. He discharged his duties with dignity, reticence and propriety; and leaves Canada with the record of having in no

way disgraced the office he held.

He will be missed.

Hearth, Glow And Homespun

(By Polly Folger.)

(Copyrighted by British and Colonial
Press, Limited.)

I call her the Joyful Shopper. She's a bairn-simpler, but she knows values. She never shops in a hurry, or, if she does, I've never been with her on such an occasion. She finds little unexpected knick-knacks which they sell things you never knew could be had, but which, once you see them, you know you've wanted for years. She has a small old wooden writing table, or a bit of Chinese embroidery she's sure to have seen the very day she bought it, and a small case containing the visiting of which is as much fun as the finding of the treasure. She has a husband who just what her husband ought to be, too.

One day she took shopping, and, to my astonishment she bought an old walnut washstand.

"What's this old furniture?" I said, "but what the devil do we do with an old washstand? I can't imagine."

"Wait," she said, "so I did, and a fortifying inter alia introduced me to a shopkeeper who had a room full of old washstands.

Her husband had cut the old washstand through the middle, half on top of the rest, and the drawer shortened to fit between. He had managed to fit some old bedding under the top part, and the top part of the upper portion and a remarkable effective bookcase was the result.

Another day my Joyful Shopper led me to a little, tumblledown shop, in whose window were cluttered together a stool, a chair, a small table, a half valise, a lamp, and an enormous board of black walnut, half a dozen chairs in various states of repair and a number of other odds and ends.

"I know this man," she said, "and he doesn't mind how much I pay him. In fact he rather likes it. I am sure he is a good man, and he is a great talker. Whether I'm buying groceries or gargoyles I always engage his services. He is a real bargainer. And speaking of gargoyles, my dear, I've found two beauties, copied from Notre Dame, which I'm going to have put up over the mantel over the brick fireplace. They're a hundred times more interesting than the ones made of metal at half the price."

But this time we were in the shop whose proprietor wore and air of deep distress, and he exchanged a length of "just don't say that" to the young people. "I like to sell to people," he said, "but this woman was born with the gift of gab, and I let her have a beautiful old table. I delivered it to-day, and do you know she paid me only \$100 because it was cheaper than a new one from a department store?"

"She did," he reiterated, in response to the Joyful Shopper's sympathetic

air of artistic consideration.

"She hadn't another thing in her house fit to keep company with that table. I'd be obliged to take away. I should like to help you, but we shouldn't sell this good old stuff, when there's so many people who don't understand it or love it."

"Not, I feel like a traitor."

As he looked about as astonished as a cat at the *Curious Shopper*, I thought the platform ready.

"What is in the world can you do with that monstrosity?" I demanded. "It's a bit of a bore, but I'm fond of it, and I waited, and in the fullness of time, lo, there appeared at the Shopper's heart, under the light of the lamp, a small, thin, pale, bearded man, dressed of which the platform of the despoiled rocker, cunningly contrived, formed the framework. I sank down in it and gazed at the Shopper and Mr. Shopper.

"You are marvels!" I breathed in admiration.

temptations of religious promoters, especially if they have a bit of the quack or mountebank in their composition. They put up a show, they love to tell us, and are essential to our meetings. They glory in making extravagant statements. They habitually exaggerate their personal religious experiences.

It is one of the dangers of simple-minded, gullible people. They are easily taken in, but it is much easier to become an innocent dupe than it is to live by proscriptive rules. It is necessary to be more romantic, to accept the feelings of a stranger, of whom you know nothing than those of the honest man, though known for years, eat meat they have known for years, and have no place to go. There are much more marvelous to find salvation in some sudden catastrophe, some tremendous overturning of all things, than the quiet, patient work of the Spirit of God.

Consequently religious quacks who can put up a pretty good bluff always get a following. They are willing to prefer the sensational even though it is unreal, to the silent work of the spirit. This is the secret of their success.

Bluff carries a man a long way in the affairs of this world. Recently the principle of one of our leading universities was that of certain men who are classed as great or near-great, that said they were "fifty-five men".

On the basis of what he means, I replied that they were "fifty-five men".

Bluff also carries a man a long way in that part of the religious world represented by church courts, church records, and popular fame and applause. They are like a certain Canadian politician who, in his desire to further his advancement, somewhat to his ability, but mostly to the fact that he does not know the meaning of the word "modest", has become a national hero.

Bluff also carries a man a long way in the affairs of the world.

Bluff carries a man a long way in the affairs of the world.

Bluff carries a man a long way in the affairs of the world.

Bluff carries a man a long way in the affairs of the world.

Bluff carries a man a long way in the affairs of the world.

This incident is no reflection on many sincere and devout people who believe in the speedy second coming of Christ. It is the result of certain men who are classed as great or near-great, that said they were "fifty-five men".

On the basis of what he means, I replied that they were "fifty-five men".

**DEATH OF
ISAAC HUNTER**

Isaac Hunter, of Spring Point, died at Macleod Hospital on Friday, June 11th, 1921. Hunter was stricken with paralysis of the stomach on Sunday, May 22nd, and was brought to the hospital here on Monday, June 1st, 1921, from which time he sank gradually till death ensued on Friday last.

The funeral service occurred on Saturday, June 4th, from the Presbyterian church, Macleod, at 3 o'clock, the services being conducted by Rev. Mr. Simons.

Services were held from the church a great number of sorrowing friends followed in the cortège to the Union Cemetery for interment.

Isaac Hunter was born at Salt Lake City, June 4th, 1856. He received his education in the public schools and attended the services of the Utah Central Railway, continuing with the company until 1880. Mr. Hunter was married to Mary Hunter in 1883. On severing his connection with the Utah Central, Mr. Hunter entered the service of the Denver & Rio Grande Railroad, of Colorado, Utah, where he continued for ten years till 1900. In that year Mr. Hunter and family came to Macleod, and he became a lumberman at Spring Point, and at the same time purchased a quarter section and entered into business with his son, who was active up to the time of his death.

Mr. Hunter was an honored member of the Macleod Lions Club, and was a member of the Masonic Lodge, Kanner's Lodge, No. 16, and three daughters—Anna, of Spring Point; Margaret (Mrs. Simpson of St. Paul, Alaska) and Martha, of Spring Point.

At the time of his death his wife, Mary; seven sons—Ernest, Stephen, Wilson, Josephine, Charles and Harry, and two daughters—Anna and three daughters—Anna, of Spring Point; Margaret (Mrs. Simpson of St. Paul, Alaska) and Martha, of Spring Point.

At the time of his death his wife, Mary; seven sons—Ernest, Stephen, Wilson, Josephine, Charles and Harry, and two daughters—Anna, of Spring Point; Margaret (Mrs. Simpson of St. Paul, Alaska) and Martha, of Spring Point.

At the time of his death his wife, Mary; seven sons—Ernest, Stephen, Wilson, Josephine, Charles and Harry, and two daughters—Anna, of Spring Point; Margaret (Mrs. Simpson of St. Paul, Alaska) and Martha, of Spring Point.
